NOTE: The amendment after FINAL to claim 1 and similar claims recites the new limitation of "display means for displaying to the player the augmented reality video viewed from the player's viewpoint position on a screen of a player's display apparatus independently from said predetermined display apparatus" in an augmented reality presentation apparatus for superimposing a virtual object in a real space and therefor it would require further consideration and/or search for the prior art because this limitation was not present in any of the original claims and the previously amended claims.
